

UN Council consults on Rwanda

Reuters, April 9, 1994

UNITED NATIONS, April 9 (Reuter) - The U.N. Security Council scheduled noon EDT (1600 GMT) consultations Saturday on the situation in Rwanda, a country torn by tribal bloodletting feared to have killed thousands since Wednesday.

Council members were expected to be informed of latest developments in the central African nation, including the arrival of troops from France to help evacuate foreign residents, but there was no immediate indication of a formal council meeting.
