Dear sir,

UNAMIR mandate includes among other things establishing of Cantonment Points and taking all the heavy weapons under its custody. It is obvious that such operations require a careful preparation and involve expenditure of a lot of money. In this view and for the purpose of economy and organization, I have to request you for detailed information on:

1. Heavy weapons inventory by types.
2. Essential requirements for storage according to your standards.
3. Estimation of the necessary maintenance by type; i.e, how many men should be involved and how often.
4. Current location of your heavy weapons.

Yours sincerely,
