DEFENCE MOD  
P/S MFA

SECURITY COUNCIL : RWANDA

Minister considers, in consequence of last week's Council decision, and hesitations that decision has put into minds of contributors to UNAMIR (New York's C04671 refers), that France has a responsibility:

- to encourage countries providing troops and equipment to follow through so that the expanded UNAMIR can go ahead;
- to offer appropriate transport/logistical support so that UNAMIR can be satisfactorily up and running by the end of the two month period authorised for the French intervention force.

2 Grateful if in first instance, New York take this up with Merimee and report response.

3 Minister welcomes advice that in field arrangements are being made for coordination between French and UN forces.
